## While Reading

## 1. What does “digital globalization” refer to, based on the introduction?

Ans: For Toppers:

Digital globalization means sharing information, ideas, and culture around the world using digital technology. People use social media, online classes, and instant messaging to connect with others in different countries. It makes communication fast and easy.

For Weak Students:

Digital globalization means sharing information and ideas all over the world through the internet and social media.

## 2. How does globalization facilitate labour mobility?

Ans: For Toppers:

Globalization increases the need for skilled workers to use modern machines and new technologies. Because of this, workers get chances to move from one country to another to find better jobs and higher wages. In this way, globalization makes it easier for people to work abroad.

For Weak Students:

Globalization creates more jobs for skilled workers and allows them to move to other countries for better work and pay.

## 3. How does globalization contribute to educational exchange?

Ans: For Toppers:

Globalization helps students and teachers connect with each other through online courses, virtual classrooms, and international programs. Through these methods, knowledge is shared easily. Students also learn about different cultures and ideas from other countries.

For Weak Students:

Globalization helps students and teachers share knowledge through online classes and international programs and learn about other cultures.

## 4. What are some educational opportunities created by digital globalization?

Ans: For Toppers:

Digital globalization creates many educational opportunities. Students can access online courses, webinars, and learn from teachers from different countries. They can also learn new languages using apps and digital tools. Moreover, students can understand different cultures through easily available information on the internet.

For Weak Students:

Digital globalization provides online courses, language learning apps, and information about different cultures.

## Reading and Critical Thinking

## 1. What is globalization and how does it promotes economic growth?

Ans: For Toppers:

Globalization means the connection and integration of the world's economies, societies, and cultures. It promotes economic growth by increasing trade between countries. It also provides access to new markets, brings investment, and helps countries share modern technology.

For Weak Students:

Globalization means countries are connected with each other. It helps economic growth by increasing trade, investment, and use of new technology.

## 2. How has globalization impacted, Pakistan's economy in terms of trade and investment?

Ans: For Toppers:

Globalization has greatly affected Pakistan's economy. In trade, Pakistan now does more business with other countries and gets access to new markets and modern technology. In investment, globalization has helped Pakistan attract foreign investors, which has increased business activities and created new job opportunities.

For Weak Students:

Globalization has increased Pakistan's trade with other countries and attracted foreign investment, which has created more jobs.

**3. What are some of the new job opportunities created in Pakistan as a result of globalization?**Ans: For Toppers:

Globalization has created many new job opportunities in Pakistan. These jobs are mainly in sectors such as information technology, telecommunications, and manufacturing. These sectors have grown due to foreign investment and modern technology.

For Weak Students:

Globalization has created new jobs in Pakistan in information technology, telecommunications, and manufacturing sectors.

**4. What is cultural exchange and how does it benefit people?**Ans: For Toppers:

Cultural exchange means sharing ideas, values, traditions, and ways of life among people from different backgrounds. It helps people understand and respect other cultures. Cultural exchange also promotes global citizenship, creativity, and economic development.

For Weak Students:

Cultural exchange means sharing culture with people from other backgrounds. It helps people understand and respect different cultures.

**5. What concerns are raised about the preservation of traditional Pakistani Cultural in the context of globalization?**Ans: For Toppers:

Globalization can cause problems for Pakistani culture. These include:

- Losing our cultural identity.
- Cultures becoming similar.
- Making culture more commercial.
- Local languages may be lost

For Weak Students:

Globalization can harm Pakistani culture by making it similar to other cultures and losing local languages.

**6. How has globalization expended access to information for students?**Ans: For Toppers:

Globalization has made it easier for students to get information. Students can now use the internet and online resources, digital libraries and e-books, online courses, and social media or academic networks to learn new things quickly and easily.

For Weak Students:

Globalization helps students get information using the internet, online books, courses, and social media.

**7. How does learning about diverse perspectives benefit students?**Ans: For Toppers:

Learning about different perspectives helps students in many ways. It broadens their understanding, encourages critical thinking, fosters empathy for others, and prepares them to be responsible global citizens.

For Weak Students:

Learning different perspectives helps students understand more, think better, and respect others.

**8. How can understanding globalization help? Young Pakistani students contributing to their country's future?**Ans: For Toppers:

Understanding globalization helps young Pakistani students plan their careers and make smart choices for the future. It also prepares them to compete in the global job market while protecting and valuing their cultural heritage.

For Weak Students:

Understanding globalization helps students choose careers, compete in jobs worldwide, and protect Pakistani culture.
